PROPERTY SERVICES SYSTEM (ANGUS ANYWHERE)

GWL Realty Advisors utilizes a web-based Tenant Service system known as Angus Anywhere. This system allows our tenants to communicate with our Tenant Services representative electronically on all types of maintenance and service requests. This system can provide you with tracking on the progress of all your work order requests, even notifying the sender when the work has been completed.

We would ask that you provide us with the e-mail information of only one or two of your staff; typically the persons who will be responsible for communicating maintenance requests for your suite. We will arrange to have your representatives properly oriented with the new system.

This system also allows us to generate detailed work order histories and Service Completion rates. Our Maintenance staff responds to your e-mailed service request via handheld devices and web-enabled cellular telephones.

Please contact the [Tenant Services Hotline](#) at (403) 777-0646 for further information.
