

STOCK EXCHANGE TOWER EMERGENCY

FIRE HAZARDS

In order to prevent fire in the building, you are advised to:

- Keep stairways, landings, corridors, exits, and Fire Hose cabinets clear of obstructions.
- Keep doors to stairways closed.
- Ensure that electrically powered equipment (e.g. coffee makers, hot plates, and copy machines) is turned off at end of each day. Do not start dishwashers unless someone will remain behind until the cycle is through.
- Do not use unsafe electrical appliances, frayed extension cords, over-loaded outlets or lamp wire for permanent wiring. Fully insert all plugs into their receptacles.
